Message templates (WhatsApp, e-mail)

Français : ../fr/06-modeles-messages.md

Common rules: only send to someone who agreed to this channel, or who wrote first; sign with a first name; at most two follow-ups (D+3, then D+10), then stop; unsubscribe mention in commercial messages; never announce a price, an availability date or a feature that is not in the written proposal or in the software.

3. WhatsApp — follow-up (D+3, then D+10 without an answer)

> Hello {contact}, I'm getting back to you about Nhill. Would you still like to see the demo? If now isn't the right time, no problem, just tell me and I won't follow up.

4. E-mail — first contact after a website form

Subject: Your Nhill demo request

> Hello {contact},
>
> Thank you for requesting a Nhill demo for {business}.
>
> I suggest 30 minutes, at your shop or by video call, with your own products. Here are two slots: {slots}. If neither suits you, suggest another one.
>
> To prepare, could you tell me: how many people sell, which devices you have (computer, Android tablet), and what you'd like to improve first (till, stock, credit sales)?
