07 — Service commitment

Français (version de référence) : ../fr/07-engagement-de-service.md

Header	
Publisher	Nhill Solution, Kinshasa (Democratic Republic of the Congo)
Version	3.0.0 — 28 October 2026 (replaces the “service level agreement” of version 2.0.0)
Status	written without review by a lawyer; recommended review point: V-01 (00 § 5). The French version is the reference text
Assumptions	H-02, H-20 (00 § 2)
Place	contract document of the terms of service (document 02)

1. Principle

The Publisher commits to the **means** described below, not to figures: no availability rate or response time is guaranteed. This commitment creates no penalty or service credit; the Publisher’s liability is governed by article 10 of document 02.

2. Operating the service

Area	Means
Hosting	virtual private server located in France (Hostinger International Ltd); database not exposed to the Internet
Monitoring	automatic check every 5 minutes (service, database, HTTPS access, certificate, disk space, day’s backup); alert to the team on failure
Backups	encrypted backup every day, kept 14 days on the server; copies of the server by the host; trial restore on a separate database
Updates	backup and copy of the database before every server update; automatic return to the previous version if the service does not restart
Maintenance	announced in advance whenever possible, preferably outside shop opening hours

3. Support

Item	Commitment
Channels	“Help and support” menu of the applications; e-mail to support@nhill.online
Order of handling	first what prevents selling or taking payments, then what hinders work, then questions
Follow-up	every request gets a written answer; the business is kept informed until resolution
Times	no response time is guaranteed

4. Connection outages

When the connection is lost, the applications record no operation without an answer from the server; an interrupted sale can be validated again without being counted twice. The business plans a fallback (sales book) for long network or power outages.

5. Information

On request, the Publisher gives the business the list of the previous month’s incidents that affected it and the measures taken.
