Nhill 3.0 documentation

Français : ../fr/index.md

Every document exists in French and English; its PDF version is in `docs/pdf/fr/` or `docs/pdf/en/` (same name, `.pdf` extension), generated by `scripts/build-docs-pdf.sh`.

Per component

Component	Role	Documents
Nhill Business	the business's application (Windows, Linux, Android)	nhill-business.md
Nhill POS	till (Windows, Linux)	nhill-pos.md
Nhill Console	the operator's application (Windows, Linux)	nhill-console.md
Nhill server	API, rights, documents, background jobs (Linux)	server.md · api-reference.md (generated from the code)
Database	PostgreSQL, business isolation, backups	database.md · database-reference.md (generated from a migrated database)
Production	Hostinger VPS in France: installation, TLS, backups, monitoring, updates	vps-deployment-hostinger.md
Marketing website	FR/EN website, forms, checks	`website/README.en.md`

Cross-cutting guides

Document	Content
user-guide.md	what is new in 3.0, common rules, what Nhill does and does not do
installation-guide.md	install the applications and the server, upgrade, troubleshoot
configuration-guide.md	`/etc/nhill/server.env`, application, platform and business settings
build-guide.md	build the Linux, Windows, Android packages and the PDFs
developer-guide.md	architecture, tests, interface, translations, migrations
security.md · 03-security-audit.md	security measures, 3.0.0 audit, risks and pending decisions
legal-parameters.md	legal and tax parameters, published texts
website-compliance-matrix.md	match between the website and the application
validation-report.md	what was built and tested, where and how
changelog.md	change log
01-technical-audit.md · 02-ui-ux-audit.md	technical and interface audits

Legal documents: `legal/en/` (index: `legal/en/00-legal-research.md` § 4). Sales documents: `marketing/en/`.

The files formerly at the root of `docs/` (`technique.md`, `api.md`, etc.) describe versions 0.1 to 2.x and are kept in `docs/archive/` for history (French); they are no longer maintained.
