Prospecting scripts (shop visit, call, WhatsApp voice note)

Français : ../fr/05-scripts-prospection.md

Principles: short, polite, concrete; talk about the trader's problem before the software; promise nothing Nhill does not do; ask for consent before recording a number for messages (template `legal/en/16-marketing-consent.md`). Adapt the language: French, Lingala or English depending on the person. Most visits in Kinshasa will be in French or Lingala; these English versions serve English-speaking prospects and partners.

1. Shop visit (2 minutes)

> Good morning [Madam / Sir], my name is [FIRST NAME], from Nhill. I'll only take two minutes — I can see you have customers.
> We help traders in [COMMUNE] keep track of their sales, stock and till on a computer, a tablet or a phone. For example, in the evening, you see how much each seller collected, without redoing the notebook sums.
> Does the evening till take you time, or do you sometimes have differences?
> *[Listen. Ask 2 or 3 discovery questions, see `04` § 4.]*
> We're running a free eight-week pilot programme, with installation and training. I can show you in fifteen minutes, with your own products, when you're less busy. Which day suits you?

If "I don't have time": "I understand. Can I come back [day] at [time]? Or I'll leave you this sheet, and if you allow me to write to you on WhatsApp, I'll send a short video."

If "it's expensive": "During the pilot it's free and without commitment. Prices will be set with the pilot traders and published before any invoicing."

If "I'm VAT-registered": "Nhill doesn't replace your DGI standardised-invoice device. It helps with stock, the till and tracking sellers; you keep your device for the tax invoice."

If "what if the Internet cuts?": "Nhill needs the Internet to record. If the connection drops in the middle of a sale, you retry it and it isn't counted twice. For a long outage, keep a backup notebook; we enter it afterwards."

If "my data?": "It's yours. Each business is kept separate from the others in the database, and our team doesn't see your invoices or customers. You can export everything whenever you want."

2. Phone call (after a referral)

> Hello [Madam / Sir], [FIRST NAME] from Nhill. [REFERRER'S NAME] gave me your number and said you might be interested in a tool to track the till and stock. Do you have two minutes?
> *[If yes]* How do you manage the till today? … I suggest a fifteen-minute demo at your shop, with your products. Tuesday or Thursday?
> *[If no]* May I send you a 60-second video on WhatsApp, if you agree? *[Record the consent, date, channel.]*

3. WhatsApp voice note (30 seconds, only with consent)

> Hello [FIRST NAME], it's [FIRST NAME] from Nhill, thanks for agreeing. As promised: Nhill lets you see your sales, your stock and each seller's till, even when you're not in the shop. I'll send the video right after. If you'd like the free demo with your products, just reply with a day that suits you. Have a good day.

4. After the contact

Step	Deadline
Enter the contact in `trackers/suivi-prospects.csv` (status, score, consent)	same day
Send what was promised (video, sheet)	within 24 h
Follow up if no answer	D+3, then D+10, then stop
