Sales presentation (10 slides)

Français : ../fr/14-presentation-commerciale.md

Content of the presentation to project or show on a tablet (15 minutes before the demo). One idea per slide; screenshots are **real screens** of Nhill 2.0 (folder `docs/assets/v2/`, automatic CI captures of a demo business). Shareable version: PDF generated from this file (`marketing/pdf/en/14-sales-presentation.pdf`).

Slide 1 — Title

Nhill — your sales, stock and till, clear. Management software for traders and SMEs · Kinshasa · [DATE] [Nhill logo, Night 900 background]

Slide 2 — What we hear from traders

- “The evening till doesn’t add up.”
- “I find out about a stock-out when the customer asks for the item.”
- “I can’t leave the shop.”

(Typical phrasings drawn from discovery interviews; not customer quotes.)

Slide 3 — The facts

- 51 % of surveyed MSMEs use digital tools; 94 % of equipped ones have a smartphone; only **19 %** stock software.
- Cost is the first barrier (54 % of micro-enterprises).

Source: Malabar / Innogence / King Baudouin Foundation, April 2025, 914 MSMEs (non-representative sample).

Slide 4 — Nhill at a glance

Three applications, one server:

- **Nhill POS** — the till;
- **Nhill Business** — sales, stock, purchases, expenses, reports, team;
- your phone — the dashboard, wherever you are.

[Real screenshot: Nhill Business dashboard]

Slide 5 — At the till

Sell fast (search `F2`, barcode, payment `F9`), several payments, change, 58/80 mm receipt. Discount above the limit → supervisor approval, recorded. [Real screenshot: Nhill POS sale]

Slide 6 — Control

- Blind closing: the cashier counts, Nhill computes the difference.
- Activity log: who did what, impossible to erase.

- One account per person. [Real screenshot: activity log]

Slide 7 — Stock and credit

Stock through movements, alert thresholds, purchase receipts; invoices, partial payments, who owes you what. [Real screenshot: stock]

Slide 8 — Built for Kinshasa

French / English · CDF / USD never mixed · network cut: no double recording · on-site support · Windows, Linux, Android (Nhill Business). **Nhill does not replace the DGI standardised invoice** for VAT payers.

Slide 9 — The pilot programme

8 weeks, free, no commitment: installation, product import, training, weekly check-in, export of your data at the end.

Slide 10 — Next step

Demo with your products, now or on [DATE] · apply: [WEBSITE]/pilot-programme · [PHONE / WHATSAPP] · [E-MAIL]

Speaker notes: before each meeting, check that the platforms cited on slide 8 are actually delivered (`release/V2.0.0/`); never add a customer or partner logo without written consent.
