04 — Cookie and tracker policy (marketing website)

Français (version de référence) : ../fr/04-politique-cookies.md

Header	
Publisher	Nhill Solution, Kinshasa (Democratic Republic of the Congo)
Version	3.0.0 — 28 October 2026
Status	factual text, checked in the code of the 3.0.0 website; to be reread whenever a tool is added to the website (V-08 if a measurement tool is added). The French version is the reference text
Assumptions	H-08, H-13 (00 § 2)

1. Current situation

The nhill.online website **sets no cookie** and uses **no tracker**: no audience measurement, no advertising, no embedded social network button, no browser storage, no font or script loaded from another site. Fonts and scripts are served by the website itself.

The server that delivers the pages receives, like any web server, the technical data needed to deliver them (IP address, page requested, browser type). The forms calculate a non-reversible fingerprint of the IP address to limit repeated submissions; it is erased after 30 days (privacy policy, document 03).

The Nhill applications use no cookies: the session is kept in the device's secure keychain.

2. If a tool is added later

Before adding a measurement tool or content from another site:

1. update this document, the privacy policy and the record of processing (document 18);
2. ask for **prior consent** for any non-essential tracker, through a banner offering "Accept" and "Refuse" with equal visibility;
3. allow consent to be withdrawn at any time (footer link);
4. set no non-essential tracker before the person has chosen.

3. Contact
