12 — Nhill application licence

Français (version de référence) : ../fr/12-licence-applications.md

Header	
Publisher	Nhill Solution, Kinshasa (Democratic Republic of the Congo)
Version	3.0.0 — 28 October 2026
Status	written without review by a lawyer; recommended review points: V-01, V-02 and ownership of the rights in the code (00 § 5). The French version is the reference text
Assumptions	H-12, H-17, H-20 (00 § 2)
Use	text provided with the Windows installer, the Linux packages and the Android application

1. Software covered

Nhill Business, Nhill POS and Nhill Console (the “Applications”), version 3.0.0 and later, for Windows, Linux and Android depending on the application, published by **Nhill Solution** (the “Publisher”).

2. Rights granted

The Publisher grants the user a **personal, non-exclusive, non-transferable and free** right to install and use the Applications, solely to access the Nhill service with a valid account (trial or subscription). Nhill Console is reserved for people authorised by the Publisher.

3. Restrictions

Except within the limits allowed by law, the user may not: copy the Applications for any purpose other than installation and backup; modify, decompile or extract their code; remove proprietary notices; distribute, rent or make them available to third parties.

4. Third-party components

The Applications include components under their own licences, in particular Qt (LGPL v3, dynamic linking: the user can replace the Qt libraries provided), libsodium (ISC) and the IBM Plex fonts (SIL OFL 1.1). The list and licence texts are provided with the Applications. This licence does not restrict the rights granted by those licences.

5. Updates

The Publisher may publish updates. The server may require a minimum version; an older application then asks to install the update before continuing.

6. Warranty and liability

The Applications are used to access the service within the framework of the terms of service (document 02), whose article 10 governs the Publisher’s liability. Outside that framework, they are provided “as is”. Check the SHA-256 fingerprint of every downloaded file before installing it (installation guide).

7. End

The licence ends automatically when access to the service ends; the user then uninstalls the Applications.

8. Governing law

Law of the Democratic Republic of the Congo; competent courts of Kinshasa, without depriving the user of the protection of the mandatory rules of their country.
